

Release Notes – April Release

Android App (version 3.0.2106.210505)

Note: Items that impact drivers have been highlighted in **Red**.

- **What's New**

- Addition of 'Removed as Active Driver [(Date Time)]' and 'Assuming Role as Active Driver [(Date Time)]' events for primary/co-driver switching
 - If the driver switches to co-driver, the event 'Removed as Active Driver [(Date Time)]' will be recorded on the primary driver's logs
 - If the co-driver switches to being primary driver, the event 'Assuming Role as Active Driver [(Date Time)]' will be recorded
 - If drive time was reassigned and accepted by a co-driver, the 'Assuming Role as Active Driver [(Date Time)]' event will be recorded along with the accepted drive time and the 'Removed as Active Driver [(Date Time)]' will be recorded along with the inactive-changed drive time on the original driver's logs
- Requiring VBUS Connection when adding Personal Conveyance and Yard Moves for both US and Canada drivers
- Switch/Select Equipment dialog
 - Addition of 'Unlisted' option within the Trailer dropdown selection
 - Selecting the 'Unlisted' option will allow the driver to add Trailer Name and Trailer License Plate
- **US Regulations**
 - ELD CSV Output File & eRODS
 - Removal of Exceptions and Annotations from the ELD Event List segment
- **Canada Regulations**
 - Roadside Inspection screen
 - Excluding of the Personal Conveyance distance from the distance (Accumulated) column
 - Edit Logs screen
 - Removal of Annotate Incorrect Driving button
 - ELD CSV Output File & PDF
 - Removal of Exceptions and Annotations from the ELD Event List segment

- **Fixes**

- Fixes an issue where the added event's time after clearing the Personal Conveyance is being counted as Off Duty hours [*Related Issues: #5691, #5834*]
- Fixes an issue where deactivating manual events causes the event next to it to be deactivated as well [*Related Issues: #5531*]
- Fixes issue where 'AgriculturalOperations' events weren't being properly converted into annotations for ERODS. [*Related Issues: #6559*]
- Fixes an issue where the dialog "You exceed 172.61692 air-mile" for Short Haul exception is being prompted once the first duty status' lat/lon is 1001/1000 [*Related Issues: #5609, #5609, #5738, #6185, #6353*]
- **Switch/Select Equipment dialog**
 - Fixes an issue where the 'Manage' button is not visible [*Related Issues: #5805, #5918, #6206*]
- **Roadside Inspection screen**
 - DVIR History

- Fixes an issue where the inspections from different drivers and vehicles are displaying when current vehicle is "None" [*Related Issues: #5514*]
- **DVIR screen**
 - Fixes an issue where the severity level is being displayed on the DVIR item that was previously marked as N/A [*Related Issues: #3467, #3703*]
- **Time Remaining dialog**
 - Fixes an issue where the Time Remaining is incorrect after being On Duty for almost 14 hours [*Related Issues: #6015*]
 - Fixes an issue where the time spent in Well Site is being counted under Shift clock [*Related Issues: #5962*]
- Fixes an issue where the Agricultural Operations exception is not removed after performing DVIR [*Related Issues: #6559*]
- Fixes an issue where there is no 34hr cycle reset when the last event is Removed Exception Remark for Agricultural Operations [*Related Issues: #6311, #6391*]
- Fixes an issue where the Time Until Break value is displaying 400,000 on the app and 2,400,000.00 on the portal>Drivers page [*Related Issues: #6346, #6393, #6416*]
- Fixes an issue upon logging in to the app where an error has occurred: "Some accounts failed to sync" while syncing driver_calc [*Related Issues: #5630, #5648*]
- Fixes an issue where some of the texts are in English even if the selected language is French [*Related Issues: #5826, #5897, #6014, #6101*]
- Fixes an issue where the Split Sleeper in Alberta cycle is not working when the total time spent is 8 hours [*Related Issues: #5875*]
- Fixes an issue where the ClearYM event is causing inconsistent clocks, statuses, and violations on the portal and the application. [*Related Issues: #6119, #5989, #5975*]
- Fixes issue of invalid 2 hour off-duty not part of core 8 violation being triggered. *Related Issues: #5992, #6430, #6494, #6354*
